## Grant Activity

Grant Activity - 2013 CWF Admin - Phase III Lake Bronson Watershed			
Description	<p>The Kittson Soil and Water Conservation District (SWCD) District Manager or District Coordinator will be in charge of completing all the necessary progress reports in eLINK. The Kittson SWCD District Manager will post reports and other information related to this project on the Kittson SWCD website at <a href="http://www.kittsonswcd.org">www.kittsonswcd.org</a>.</p> <p>The Kittson SWCD District Coordinator will keep track of expenditures that are charged to this project. The Kittson SWCD District Manager and District Technician will work together to coordinate the work that needs to be done for this project. The administrative work will also involve accounting for and management of in kind contributions from the Two Rivers Watershed District (TRWD), Farm Service Agency (FSA), Natural Resources Conservation Services (NRCS) and the Lake Bronson Watershed landowners.</p>		
Category	ADMINISTRATION/COORDINATION		
Start Date	20-Feb-13	End Date	
Rates and Hours			
Actual Results	No SWCD Staff Time was spent on this for Calendar Year 2014.		

## Grant Activity - 2013 CWF Project Development - Phase III Lake Bronson Watershed

Description	<p>The Kittson Soil and Water Conservation District (SWCD) District Manager and District Technician will work together to plan the installation of 200 acres of grass filter strips within the Lake Bronson Watershed.</p> <p>The exact locations of these grass filter strips will be identified during the signup/design process. The Kittson SWCD District Manager has already sent out letters informing landowners of the additional incentives to signup for these grass filter strips. Interested applicants will meet with the Kittson SWCD District Manager to discuss and or signup for the program.</p> <p>The Kittson SWCD will work with the Continuous Conservation Reserve Program (CCRP), Farm Service Agency (FSA), Natural Resources Conservation Services (NRCS) and the obtained Clean Water Funds to promote grass filter strips adjacent to sensitive water bodies that flow to Lake Bronson.</p> <p>Applicants will sign the necessary paperwork with the Roseau or Kittson FSA and Kittson SWCD. Contracts will preferably start October 1, 2013 or October 1, 2014; however, since CCRP is a continuous signup, contracts could start at anytime. Contracts will be for 15 years.</p> <p>Approved applicants will receive a Farm Service Agency's aerial map with acres assigned to each field. Applicants will also receive a spreadsheet explaining the breakdown of funds, such as how much Farm Service Agency will pay and how much the Clean Water Funds will pay.</p>

Rates and Hours			
Actual Results	No SWCD Staff Time was spent on this for Calendar Year 2014.		

## Grant Activity - 2013 CWF Tech./Engineering - Phase III Lake Bronson Watershed

Description	<p>The Kittson Soil and Water Conservation District (SWCD) District Manager and the Natural Resources Conservation Services (NRCS) will develop the plans and specifications for 200 acres of grass filter strips that will be installed in the Lake Bronson Watershed. Grass filter strips will be designed to NRCS specifications. The District Manager and NRCS will assist with seed plans for the approved areas. Approved applicants will sign their acreage at the Farm Service Agency (FSA) under the CCRP.</p> <p>These Clean Water Funds will also be used to increase the approved landowner(s) Soil Rental Rate to be competitive with current commodity prices. Once the grass filter strips are planted according to NRCS specifications, the additional Clean Water Funds will be paid in a one time single payment.</p> <p>Side Water Inlets (SWI), for those applicants who are interested, will be surveyed by the Kittson SWCD and or NRCS. A design will be done by Area NRCS Engineers or the Kittson SWCD District Manager. Checkout of any SWIs will be done by the Kittson SWCD District Manager and/or Area NRCS Engineers. All SWIs will be built and design according to NRCS specifications and guidelines. TAA documentation will be on file at the Kittson SWCD.</p> <p>Grass Filter Strips widths will be between 60 feet to 120 feet wide and contracts will be 15 years long. The seed mixes will follow the NRCS 393 Grass Filter Strip standard. All grass will be native grasses and only of ecotypes native to the Kittson/Roseau County area. Applicants will submit their seed tags, bills, invoices, personal hours, etc. to the Kittson SWCD or Farm Service Agency to receive up to 90% cost share assistance.</p>		
Category	TECHNICAL/ENGINEERING ASSISTANCE		
Start Date	20-Feb-13	End Date	
Rates and Hours			
Actual Results	<p>As of 12/31/14, a total of 18 hours have been spent on this project since it has been approved. Majority of the work has been creating aerial maps/proposals for landowners along the eligible county ditches. The Kittson SWCD website has been kept up to date with information regarding the Clean Water Funds we have received. Due to lack of a Farm Bill at numerous times and competitive land rent and at times commodity prices, no new participants have signed up. Landowners need first sign at FSA into a CCRP contract before signing one with the SWCD for Clean Water Funds.</p>		

### Grant Activity - Anticipated 2013 CWF Lake Bronson Watershed Reduction Project

Description	The goal of the project is to establish 200 acres of grass filter strips and/or Side Water Inlets (SWI) where needed within the Lake Bronson Watershed in accordance with NRCS specifications. CCRP cost share assistance (up to 90%) will help with the installation/establishment of the grass filter strips and installation/establishment of any Side Water Inlets.		
Category	AGRICULTURAL PRACTICES		
Start Date	20-Feb-13	End Date	
Rates and Hours			
Actual Results	No SWCD Staff Time or CWF payments was spent on this for Calendar Year 2014.
