

Grant All-Detail Report 2012 - Clean Water Assistance

Grant Title - 2012 - Clean Water Assistance - Kittson (SWCD)

Grant ID - C13-3759

Organization - Kittson SWCD

Grant Awarded Amount	\$175,000.00	Grant Execution Date	
Required Match Amount	\$43,750.00	Grant End Date	1/1/2020
Required Match %	25%	Grant Day To Day Contact	Darren Carlson

Budget Summary

	Budgeted	Spent	Balance Remaining*
Total Grant Amount	\$175,000.00	\$29,699.62	\$145,300.38
Total Match Amount	\$70,384.00	\$32,060.51	\$38,323.49
Total Other Funds	\$17,749.00	\$17,749.00	\$0.00
Total	\$263,133.00	\$79,509.13	\$183,623.87

**Grant balance remaining is the difference between the Awarded Amount and the Spent Amount. Other values compare budgeted and spent amounts.*

Grant Activity

Grant Activity - 2012 CWF Admin - Red River Watershed

Description	The Kittson Soil and Water Conservation District (SWCD) District Manager or District Technician will be in charge of completing all the necessary progress reports in eLINK. The Kittson SWCD District Manager will post reports and other information related to this project on the Kittson SWCD website at www.kittsonswcd.org . The Kittson SWCD District Coordinator will keep track of expenditures that are charged to this project. The Kittson SWCD District Manager and District Technician will work together to coordinate the work that needs to be done for this project. The administrative work will also involve accounting for and management of in kind contributions from the Two Rivers Watershed District (TRWD), Joe River Watershed District (JRWD), Farm Service Agency (FSA), Natural Resources Conservation Services (NRCS) and the Red River of the North Watershed landowners.		
Category	ADMINISTRATION/COORDINATION		
Start Date	5-Apr-12	End Date	
Rates and Hours			
Actual Results	As of 3/21/15, a total of 49.5 hours have been spent on this project since it has been approved. Majority of the work has been creating aerial maps/proposals for landowners along the eligible county ditches. The Kittson SWCD website has been kept up to date with information regarding the Clean Water Funds we have received. Due to lack of a Farm Bill, at times, current land rent and crop commodities, no new participants have signed up. Landowners need first sign at FSA into a CCRP contract before signing one with the SWCD for Clean Water Funds.		

Grant Activity - 2012 CWF Project Development - Red River Watershed

Description

The Kittson Soil and Water Conservation District (SWCD) District Manager and District Technician will work together to plan the installation of 75 acres of grass filter strips within the Red River of the North Watershed.

The exact locations of these grass filter strips will be identified during the signup/design process. The Kittson SWCD District Manager has already sent out letters informing landowners of the additional incentives to signup for these grass filter strips. Interested applicants will meet with the Kittson SWCD District Manager to discuss and or signup for the program.

The Kittson SWCD will work with the Continuous Conservation Reserve Program (CCRP), Farm Service Agency (FSA), Natural Resources Conservation Services (NRCS) and the obtained Clean Water Funds to promote grass filter strips adjacent to sensitive water bodies that flow to Lake Bronson.

Applicants will sign the necessary paperwork with the Kittson SWCD. Once the signup period is complete, all applicants will be reviewed by a screening committee consisting of staff members from the Kittson and Roseau SWCD, Two Rivers Watershed District (TRWD), Joe River Watershed District (JRWD), Natural Resources Conservation Services (NRCS) and the Farm Service Agency (FSA). Once the screening committee approves (or does not approve) applicants, the Kittson SWCD will call and let them know to stop into our office to sign paperwork. Contracts will preferably start October 1, 2012 or October 1, 2013; however, since CCRP is a continuous signup, contracts could start at any time. Contracts will be for 10 to 15 years.

Approved applicants will receive a Farm Service Agency's aerial map with acres assigned to each field. Applicants will also receive a spreadsheet explaining the breakdown of funds, such as how much Farm Service Agency (FSA) will pay and how much the Clean Water Funds will pay.

PROJECT DEVELOPMENT

Start Date

5-Apr-12

End Date

Rates and Hours

Actual Results

As of 12/31/14 no landowners have signed up for the program, due to the Farm Bill has been periodically inactive (October 1, 2012 to present) and this area has higher rent than the \$150/acre/year. Landowners first need to sign up at the FSA a CCRP contract before signing a contract for Clean Water Funds.

Description	<p>The Kittson Soil and Water Conservation District (SWCD) District Manager and the Natural Resources Conservation Services (NRCS) will develop the plans and specifications for 75 acres of grass filter strips that will be installed in the Red River of the North Watershed. Grass filter strips will be designed to NRCS specifications. The District Manager and NRCS will assist with seed plans for the approved areas. Approved applicants will sign their acreage at the Farm Service Agency (FSA) under the CCRP.</p> <p>These Clean Water Funds will also be used to increase the approved landowner(s) Soil Rental Rate to be competitive with current commodity prices. Once the grass filter strips are planted according to NRCS specifications, the additional Clean Water Funds will be paid in a one time single payment.</p> <p>Side Water Inlets (SWI), for those applicants who are interested, will be surveyed by the Kittson SWCD and or NRCS. A design will be done by the Area NRCS Engineers or the Kittson SWCD District Manager. Checkout of any SWIs will be done by the Kittson SWCD District Manager and/or Area NRCS Engineers. All SWIs will be built and design according to NRCS specifications and guidelines. TAA documentation will be on file at the Kittson SWCD.</p> <p>Grass Filter Strips widths will be between 60 feet to 120 feet wide and contracts will be from 10 to 15 years long. 3 to 5 grass species will make up the seed mixes that will follow the NRCS 393 Grass Filter Strip standard. All grass will be native grasses and only of ecotypes native to the Kittson County area. Applicants will submit their seed tags, bills, invoices, personal hours, etc. to the Kittson SWCD or Farm Service Agency to receive up to 90% cost share assistance.</p> <p>Applicants will follow the CCRP contract for maintenance of the area. They are allowed to spot clip weeds when necessary but are not allowed to harvest the areas.</p>

Start Date	5-Apr-12	End Date	
Rates and Hours			
Actual Results	<p>As of 12/31/14, a total of 70 hours have been spent on this project since it has been approved. Majority of the work has been creating aerial maps/proposals for landowners along the eligible county ditches. The Kittson SWCD website has been kept up to date with information regarding the Clean Water Funds we have received. Due to (at times) a lack of a Farm Bill, current land rent and crop commodities, no new participants have signed up. Landowners need first sign at FSA into a CCRP contract before signing one with the SWCD for Clean Water Funds.</p>		

Grant Activity - Anticipated CWF 2012 Red River Watershed Runoff Reduction

Description	The project will reduce runoff and decrease movement of sediment, nutrients and bacteria by targeting, prioritizing and installing vegetative practices along with potentially installing Side Water Inlets (SWI) within the Red River of the North and upland subwatersheds. Emphasis will be placed on the Red River of the North, which is on the Minnesota Pollution Control Agency (MPCA) Impaired Waters for Kittson County for Turbidity. Emphasis will also be placed on County Ditches 12 and 26 in the Two Rivers Watershed District and County Ditches 12, 28 and 29 in the Joe River Watershed District. These ditch systems and the Red River of the North are prone to major flooding and sediment overload due to current cropping practices.

Start Date	5-Apr-12	End Date	
Rates and Hours			
Actual Results	As of 12/31/14, a total of 70 hours have been spent on this project since it has been approved. Majority of the work has been creating aerial maps/proposals for landowners along the eligible county ditches. The Kittson SWCD website has been kept up to date with information regarding the Clean Water Funds we have received. Due to lack of a Farm Bill (at times) and current rental rates in the area is still very high, no new participants have signed up. Landowners need first sign at FSA into a CCRP contract before signing one with the SWCD for Clean Water Funds.		

Grant Activity - CWF 2012 Lake Bronson Watershed - Phase II

Description	The goal of the project is to establish 100 acres of grass filter strips within the Lake Bronson Watershed in accordance with NRCS specifications.		
Category	SPECIAL PROJECTS		
Start Date		End Date	
Rates and Hours			
Actual Results	As of 2/1/14, 6 landowners/contracts have signed up for the grass filter strip program. As of 12/31/14, 4 of these landowners/contracts have been planted for 28.7 acres. The remaining 2 landowners/contracts for 13.32 acres will be planted in spring 2015.		

Grant Activity - CWF Admin - Lake Bronson Watershed Phase II

Description	The Kittson Soil and Water Conservation District (SWCD) District Manager or District Technician will be in charge of completing all the necessary progress reports in eLINK. The Kittson SWCD District Manager will post reports and other information related to this project on the Kittson SWCD website at www.nwmnswcd.org . The Kittson SWCD District Coordinator will keep track of expenditures that are charged to this project. The Kittson SWCD District Manager and District Technician will work together to coordinate the work that needs to be done for this project. The administrative work will also involve accounting for and management of in kind contributions from the Two Rivers Watershed District (TRWD), Farm Service Agency (FSA), Natural Resources Conservation Services (NRCS) and the Lake Bronson Watershed landowners.
